New Release High-lights**Puerto Rico Anniversary Edition** (Rio Grande) 2-5 Players

Has completely redesigned components and artwork, including individual player boards, the VP tokens, the ships and other components. The cardboard doubloons are now sixty metal coins, while the fifty octagonal resources have been replaced with colored wooden crates. The building tiles are now illustrated and the cardboard for those tiles and other components are nearly 3 mm thick to give the bits more heft. Also includes two expansions that were previously released, “New buildings” & “Nobles”.

**Dungeon Petz** (Z-man) 3-5 Players

A standalone game set in the Dungeon Lords universe, consists of several rounds in which players use unusual worker placement mechanisms (players simultaneously prepare different sized groups of imps in order to play sooner than others) to prepare themselves for the uneasy task of raising creature cubs and pleasing their different needs represented by cards in order to sell them as grown scary creatures to Dungeon Lords. In the meantime they also attend various contests in which they show off their pets, scoring additional points.

**Octopus Garden** (Valley Games) 2-4 Players

Create the most beautiful undersea garden by cultivating oysters, spending pearls to buy plants and animals, and trying to attract beautiful fish. Grow coral, sea grass, feather worms and anemones. Attract beautiful clown fish with your anemones and welcome a lovely sea horse into your bed of sea grass. The player with the most beautiful undersea garden at the end of the game wins.

Winner of 2010: Canadian Game Design of the Year

**Fealty** (Asmadi) 2-4 Players

A game of positioning and territory control. Each turn, all players add one piece to the game board, with increasing constraints on placement as time goes on. Some pieces have an effect when brought into play. At the end of the game, all pieces place influence in order of speed, claiming territory and blocking slower opposing pieces. The player who has maneuvered their pieces to place the most influence onto the board wins.

**Mage Knight** (WizKids) 2-4 Players

Designed by renowned designer Vlaada Chvatil, Mage Knight is a game of Epic Exploration and Conquest that mixes character development, intrigue, and the clashing of swords to create a truly unique gaming experience. Includes a variety of campaign options, allowing you to play both competitively or cooperatively.

**Takenoko** (Asmodee) 2-4 Players

Players cultivate land plots, irrigate them, and grow one of the three species of bamboo (Green, Yellow and Pink) with the help of the Imperial gardener to maintain this bamboo garden. They will have to bear with the immoderate hunger of this sacred animal for the juicy and tender bamboo. The player who manages his land plots best, growing the most bamboo while feeding the delicate appetite of the panda, will win the game.
